Subtitle: Power Objects: Third of Five Necessary Spiritual Weapons

The topic of Power Objects (POs) is the most genius chapter in the world. Reaching higher levels of spiritual success is only possible with POs. The number one most important thing to remember is that you can turn yourself into a PO through your Personal Mantra (See February & July 2015 articles archived on my website, [www.ToLoveAllServeAll.com](http://www.ToLoveAllServeAll.com)). You can turn your bones, eyes, hair, nails, all of your body into a PO. Never depend on a PO outside yourself but learn how to use them to compliment you as the PO. Today, you will learn about some of the key mechanisms of Power Objects.

### **What is a Power Object?**

A PO is just that, an object that contains power. There are two kinds of POs: Natural and Supernatural. Natural POs are made by nature and Supernatural POs are made by a Divine soul or spiritual master. In this creation, power must have an object to flow through. Similarly, mantras must have a yantra in order for one to experience a divine energy channel. Once you know how to create and operate a PO, anything is possible; the sky is the limit! POs provide huge protection circles. Whatever soul created a supernatural PO or stored their powers there is present in every PO and that is often why people are attracted to them.

### **Examples of Natural POs**

- Peacock feathers
- Rudraksha seeds
- Right sided conch shell
- Falling stars
- Starfish

### **Examples of Supernatural Power Objects**

- The #1 top Power Object is the Venkateshwara Statue in Tirupati, India.
- Pictures, statues or rocks that produce honey, a fragrant oil, kumkum or ash.
- Any object given by Mother Divine or Father Divine or any Divine soul during a darshan (seeing them with your eyes open).
- The four buried flames that are self-maintained in Shirdi, India near the neem tree.
- Any cloth used on Shirdi Sai Baba's statue in Shirdi or Penukonda, India.

### **Top 10 Points on Power Objects**

1. If you know how to operate a Power Object, you are a spiritual genius. Once you begin operating it, the energy will start to multiply millions of times in you.
2. Power Objects are one of the shortest shortcut methods to easily connect with Mother Divine, the soul who gave you the object or created it, or any Divine soul. Mother Divine stays in all POs.
3. The spiritual powers called siddhis are in every PO.
4. Power Objects recharge you and generate background support to you, 1,000%. POs bring courage, braveness, confidence, faith, inspiration, it brings them all. You can heal yourself or others with a PO. You can decharge negative energy and stress into a PO and it transforms it into light.

POs help rebalance energy.

5. Each PO has a PIN code that is necessary to know in order to implement its energy. There are some POs that when you hold them, the energy positively affects you even without knowing the PIN code. When you have the PIN code, it opens up the higher level of the energy. Once a person has grown in soul capacity, I teach them PIN codes.

6. Illusions play around POs and they can disappear or you can lose it. If your soul power is not ready to hold or handle that energy, or if a PO is ever misused or abused, the PO will automatically run away from you. If you ever loose a PO, do not get down; lift your vibration in integrity to magnetize it back.

Jesus received a lot of POs, buried them in India, and he left. He thought he would come back to get all his POs but the illusion hit. If he had gone with all his POs, there was no way the negativity could attack him the way it did. The illusion played out and made him keep everything in India. He later returned to India after the crucifixion.

7. If you do crazy, egotistic stuff with a PO, it can start to ruin your life.

8. A Master fixes a PO specifically to your soul through a special process. They never just give it; before they give it, they need a minimum of a seven-day period to fix it for your soul.

9. You can learn how to create a PO and transfer your energy into it and store it there.

10. No matter what, do not ever lose or give away your PO. Even if you feel uncomfortable, no matter what you start thinking about it, do not throw it out or give it to someone. Keep it. Just lock it up or put it away somewhere.

It is a golden statement that POs pull a lot of divine energy. POs do not lose their power. They automatically keep channeling the energy.

### **What can you do with a Power Object?**

- ✓ **Meditate:** Whenever you meditate, hold or just keep your POs around you.
- ✓ **Sleep:** Wherever and whenever you are sleeping, POs should be kept in your bedroom. You can sleep with them but be sure they do not fall on the floor. The energy really lifts your soul step by step.
- ✓ **Heal:** Give healings with your POs and allow people to hold or touch them but never allow anyone to steal your POs or the energy in them.
- ✓ **Purify:** Put Baba's abishek (holy water) water on your POs. Give them an abishek at least on the full and new moons to clean them.

### **Be Careful When Showing Your Power Objects**

Kaleshwar was not the only person who has the knowledge of POs. You can share your POs with people for healing, your friends, or any normal person who you feel comfortable with who are loving and clear. However, never give your POs to any powerful saint or healer more powerful than you. I know saints who publically have either stolen POs or stole the energy from a PO from innocent people who were coming to them for a blessing, hug or just to have a conversation. I consider this action a soul crime.

## **Power Object Processes For You**

If you put a Jesus picture in your home and look at it, during the first month you see it as a normal picture. The second month you can start to see a little difference because his presence is there. After one year, you can see a huge presence is growing inside that picture. After five years, something changes in that picture. It is really dazzling because it comes alive!

My spiritual brother, friend, guru, and enlightened master Sri Kaleshwar, who certified me to be a Soul Doctor, was an expert and had the super specialization in this creation on POs. He had the PIN code to all POs on this earth. Saints from all over the globe came to him to solve problems with their POs. He was graced with top POs because his intentions were to use them to help lift humanity and grow masters. When Kaleshwar was asked what his greatest Power Objects were, he answered, "My students".

The powers of a PO must be used to help others for the energy to grow supernaturally. Miracle healings have already and continue to occur with the work I do as an instrument of the Divine, as I do use POs. **If you are interested in experiencing healing with a Power Object, in September please see me in the healing sanctuary by the entrance to the main stage at BhaktiFest, held at the Joshua Tree Retreat Center on September 10-13, 2015.** See <http://west.bhaktifest.com/healing-sanctuary/> for more details.

Stay tuned next month as we explore the fourth necessary spiritual weapon to reach the highest stage in spirituality, called a Soul Object.
