

NEW MOON Midnight Meditation

from the Enlightened Masters

with Soul Doctor Juleann at BhaktiFest

Juleann is entrusted with the original ancient teachings of Mother Divine, the loving Maha Kali, Jesus, Shirdi Sai Baba and their shared lineage directly from enlightened master Kaleshwarji who led her to see them with her eyes open. In India, after seven years together, days before he left his body, he told her he gave her everything and to share it all. This night, you will receive a powerful ancient meditation found by the same one who discovered the Gayatri mantra that **washes 90% of karmas, controls negativity, creates strong protection circles, makes your spiritual heart strong** and more. She leads new & full moon meditations around a holy fire in West LA. [You are invited to receive a transmission of Divine energy with her in the healing sanctuary at BhaktiFest!](#)
